PROJECT MANAGER

Want to make a difference? Interested in joining a team of professionals responsible for providing energy solutions to meet the unique needs and opportunities of Alaska's communities? Then check out the details for our Project Manager position with Alaska Energy Authority (AEA).

Our Project Manager position is responsible for the planning, design and construction of rural power systems, including diesel power plants, bulk fuel tank farms, renewable energy systems, and power distribution systems. This position also provides technical assistance to rural Alaska communities in order to support the safe and reliable operation and maintenance of bulk fuel tank farms, electrical power generation and distribution systems, and renewable energy systems.

We're looking for someone who has a bachelor's degree in Civil, Mechanical, Electrical Engineering, or a related field. A Project Management Certification (PMP) may be considered in place of the degree requirement. A minimum of 10 years of experience in the construction, operations, and/or maintenance of rural power and/or bulk fuel systems. Registered Professional Engineer in the State of Alaska preferred.

For more information, or to apply online, visit www.akenergyauthority.org. Send application and/or resume to Human Resources, AIDEA, 813 W. Northern Lights Blvd., Anchorage, AK 99503, by fax to (907) 771-3946.

AEA is an EEO/ADA employer. Individuals requiring accommodations should call 1-800-587-0430 or (907) 465-3412 (TTY).
